

ECE 3441 Spring 2025
Lab Exam
Sequence Assignment Sheet

Pick the sequence whose number equals the **last digit of your PeopleSoft ID**. For example, if your PSID is 1947236, then you should pick sequence 6. Your circuit will be graded strictly according to this rule (not your scratch-work), so make sure you use the correct sequence. You must bring a Cougar Card or other forms of ID to the exam to verify your PSID.
